OUR HISTORY

Canada's Highest Quality Doors, Since 1912

Celebrating Over 100 Years In Business

Incorporated in 1912, Richards-Wilcox was the first company in Canada to introduce sectional overhead doors and establish nationwide distribution channels. In the 1970s, RW launched a full line of steel sectional doors. In the 1980s, we began production of a continuous polyurethane insulated section – one of only three lines of its kind in North America.

The subsequent decades have brought continual improvements to our product offerings and manufacturing processes, including the addition of a full range of residential polyurethane insulated sectional doors. Celebrating our first centenary, RW is proud of our rich history of excellence. We are committed to be innovators of sectional door design and purpose to be the highest quality door systems manufacturer in the world.

Quality Production

Every aspect of our manufacturing operation is subject to the highest standards. Our team of engineers is dedicated to researching state-of-the-art design and production methods. An in-house testing facility and uncompromising quality control inspections make certain that only premium products leave the premises. Using the best available materials and technology guarantees that the finished door system will be reliable, strong, and worry-free for years to come.

R-W AUTHORIZED DEALERS

A door is only as good as its installation. That's why our doors are only installed by Authorized Dealers. This process ensures that every installation meets our standards of quality.

MADE IN CANADA

Richards-Wilcox Canada has been in business for over 100 years; from parts, to hardware to panels, R-W doors are proudly made in Canada.

LIMITED LIFETIMER™ WARRANTY

There are enough worries in life – your garage door shouldn't be one of them. When you choose Richards-Wilcox, you've chosen the best garage door you can buy and we'll back that up in writing with our Limited Life-Timer™ Warranty.

WEATHERLOCK™ SYSTEM

Unique Section Joint & Perimeter Door Seal System

Landmark doors incorporate R-W's exclusive WeatherLock™ Section Joint. R-W's modified tongue and groove joint moves the joint closer to the exterior of the door face to limit air and water infiltration, while providing unyielding section strength and integrity. R-W's Dual Fin, Triple Contact Weather Seal is engineered to seal out dirt, bugs, wind, snow and water and match up beautifully with most garage styles and colors. Our Arctic Grade Bulb Shaped Bottom Seal with a rust resistant Dual Contact aluminum retainer increases the strength of the bottom of the door.

ENGINEERED GARAGE DOOR SYSTEM

Our Garage Doors Last A Lifetime

Engineered and tested door systems that conform to the highest industry standards and regulations. R-W manufactures all door panels and major hardware components, giving us complete quality control from start to finish.

NEUFOAM™

It's What's Inside That Counts!

In order to achieve the highest thermal values and stability, R-W sections are evenly filled environmentally friendly CFC/HCFC-free Neufoam™. The higher density polyurethane insulation in a computer controlled continuous process provides uniform insulation, superior adhesion and excellent strength to the door panels.

TRU-BALANCE™ DRUM SYSTEM

Safely Manually Operate Your Garage Doors In Emergency Situations

The patent pending TruBalance™ Drum System provides doors built with a heavy weighted glazed top section with up to an 87% better balance than industry standard. This improved drum configuration delivers a smoother operation, and more control, as the door moves through the track radius in to the horizontal plane. Homeowners will have a piece of mind that they can safely operate their garage door with ease in emergency situations. TruBalance™ also reduces the load on your electric door opener extending the service-free life span.

INTRODUCING THE R-W **Landmark** Series™

The Newest Line of High-Performance Garage Door Systems By **Richards-Wilcox.**

Landmark is R-W's line of Neufoam™ insulated Garage Doors. From Classic to Modern, from Carriage House to Customizable Cedar Overlays. Landmark has you covered.
